### Why Choose the Xstream XL?

- Designed to sort cartons, poly bags, flats, boxes, tubs, and flat containers
- Products & parcels are accurately sorted into different destinations such as carts, conveyor spurs, or gaylords
- High speed sortation at up to 600 feet per minute
- Automatically sorts products at high throughputs using shoes and slats
- Anti-jam sliding shoes & slats with a breakaway design that prevents jams and allows for easy replacement
- Impact-resistant fiber-reinforced nylon endcaps
- Efficient for sorting large sized cartons and containers.
- Conveyor spurs and chutes with product control technology allows for gentle distribution of parcels
- Industry leading uptime
- Scalable and modular design allows it to expand with your business.
- Integrates with NPI or third party systems
- Industry leading five week install
