Why Choose the Xstream XL?

- Designed to sort difficult to automate packages like poly bags, flats, boxes, tubs, and flat containers
- Products & parcels are accurately sorted into different destinations such as carts, conveyor spurs, or gaylords
- Automatically sorts products at a high throughputs using shoes and slats
- Anti-jam sliding shoes & slats with a breakaway design that prevents jams and allows for easy replacement.
- Impact-resistant fiber-reinforced nylon endcaps
- Efficient for sorting large sized boxes and containers. Sort larger sized products and parcels that other systems aren't capable of
- Utilize conveyor spurs or chutes with product control technology
- Industry leading uptime
- Scalable and modular design allows it to expand with your business.
- Integrates with 3rd party systems
- Industry leading 5 week install time
